FEB 2027
Prepare for the Next Stage

Semi-Finals Pitch Day
MAR 2027
Present to the jury

High Potential Accelerator Program Starts

Finalists Intensive Training
APR 2027
Refine and Scale your AI Agent Pitch Deck

Grand Finale Awards Ceremony
6 MAY 2027
Winners announced

SUBMISSION REQUIREMENTS

تحـــدي الذكـــاء الاصطناعي المســاعد
CREATE AI AGENTS CHAMPIONSHIP

TO COMPLETE YOUR SUBMISSION FOR THE CREATE AI AGENTS CHAMPIONSHIP, YOU MUST PROVIDE THE FOLLOWING THREE COMPONENTS:

AI AGENT PROTOTYPE

A working prototype demonstrating your AI agent's capabilities.

PITCH DECK

A presentation outlining your idea, the problem, your solution and its potential impact.

DEMO VIDEO

A walkthrough showcasing how your AI agent works.

Important: All three components must be submitted through the official Submission Portal on the Create AI Agent Learning Platform.

1. AI Agent Prototype

Present your AI agent and demonstrate how it addresses a real-world challenge.

2. Pitch Deck

Introduce your idea, the problem you're solving, your proposed solution and its potential impact.

3. Demo Video

Showcase how your AI agent works, highlighting its key features and capabilities.

YOUR ROADMAP TO AN EFFECTIVE PITCH

تحـــدي الذكـــاء
الاصطناعي المســاعد
CREATE AI AGENTS
CHAMPIONSHIP

Welcome to the Create AI Agents Championship Pitch Guide!

This guide will help you structure a compelling pitch that clearly communicates your AI agent's purpose, functionality, unique value and potential impact. Use it as your roadmap to presenting your idea with clarity and confidence.

How to Use This Guide:

- **Follow the Structure: Use each section to build a clear and convincing story about your AI agent.**
- **Showcase Your AI Agent: Demonstrate how your agent works, the tasks it performs and the real-world problem it solves.**
- **Highlight Your Unique Value: Explain what makes your AI agent different and the impact it can deliver.**
- **Keep It Visual: Use diagrams, screenshots and demonstrations to bring your AI agent to life.**
- **Practice and Refine: Keep your pitch concise, engaging and easy to understand, even for a non-technical audience.**
- **Note: This guide is for reference, feel free to customize the design as per your colors and branding!**

COVER & TITLE SLIDE

Title: AI Agent Name
Sub-Title: AI Agent Slogan or Tagline
Image/Background: Relevant visual (e.g. your AI agent's logo, interface or prototype)

TIPS

- Include your AI agent's logo or a relevant visual.
- Add a clear, memorable tagline that reflects its purpose.
- Keep the design simple, professional and visually appealing.

AVOID

- Overloading the slide with text or technical details.
- Using distracting colours, visuals or complicated layouts.

SLIDE 1: INTRO TO AI AGENT CONCEPT

تحـــدي الذكـــاء الاصطناعي المســاعد
CREATE AI AGENTS CHAMPIONSHIP

Content:

- Provide a simple, clear introduction to your AI agent and its purpose.
- Explain what your AI agent does using relatable, real-world examples.
- Highlight the problem it addresses and how your AI agent provides a solution.

Visuals:

- AI agent logo, simple workflow diagram or prototype screenshots.

Problem

What real-world problem does your AI agent aim to solve?
Who experiences this problem?

Solution

How does your AI agent address this problem?
What value does it deliver to users?

TIPS

- Explain your AI agent as if introducing it to someone unfamiliar with AI.
- Use simple, relatable language.
- Include visuals to illustrate your concept.

AVOID

- Using excessive technical terminology.
- Overwhelming the audience with complex explanations or unnecessary details.

SLIDE 2: THE PROBLEM AND SOLUTION

تحـــدي الذكـــاء الاصطناعي المســاعد
CREATE AI AGENTS CHAMPIONSHIP

The Problem:

- Clearly define the real-world problem or challenge your AI agent aims to solve.
- Use relevant statistics, data or insights to demonstrate the scale and significance of the problem.

Your Solution / Concept Validation:

- Explain in 1–2 sentences how your AI agent addresses the identified problem.
- Highlight how AI-driven automation or decision-making improves the existing process.
- Optional: Include early validation through surveys, interviews, user testing or feedback.

Problem

What specific problem does your AI agent solve?

Who is affected by this problem?

TIPS

- Support your problem statement with relevant data or real-world examples.
- Clearly connect your AI agent's solution to the identified problem.

AVOID

- Going into detailed technical features or functionality at this stage.
- Making broad claims without evidence or a clearly defined problem.

SLIDE 3: TARGET MARKET & MARKET OPPORTUNITY

تحـــدي الذكـــاء الاصطناعي المســاعد
CREATE AI AGENTS CHAMPIONSHIP

Target Audience

Who will benefit from your AI agent?

Which users, businesses or industries are you targeting?

Market Opportunity

Is there a demonstrated need for your AI agent's solution?

What is the estimated size of your potential market?

Content:

- Identify your AI agent's target audience and the specific users or industries it serves.
- Highlight the potential market size and demand for your AI agent's solution.
- Explain opportunities for future growth, adoption or expansion.

Visuals:

- Charts or graphs illustrating market size, target users and industry demand.

TIPS

- Define your target audience clearly and specifically.
- Support market potential with relevant data, research or industry trends.

AVOID

- Making broad claims such as "everyone can use our AI agent."
- Presenting unrealistic market estimates or growth projections without supporting evidence.

SLIDE 4: UNIQUE VALUE PROPOSITION & DIFFERENTIATION

تحـــدي الذكـــاء الاصطناعي المســاعد
CREATE AI AGENTS CHAMPIONSHIP

Content:

- Clearly explain what makes your AI agent unique.
- Highlight key capabilities or benefits that differentiate it from existing solutions.
- Focus on the real-world value your AI agent delivers, such as saving time, reducing costs or improving efficiency.

Visuals:

- Icons, diagrams or simple graphics highlighting your AI agent's key differentiators.

Key Differentiators

What unique value does your AI agent offer?

Why would users choose your AI agent over existing solutions?

What makes your approach innovative or different?

TIPS

- Clearly communicate your AI agent's unique selling points.
- Highlight measurable benefits and real-world impact.

AVOID

- Focusing only on technical features without explaining their value.
- Making unsupported claims or relying on generic statements such as "powered by AI."

SLIDE 5: FOUNDERS' STORY
YOUR VISION & MOTIVATION

تحـــدي الذكـــاء
الاصطناعي المســاعد
CREATE AI AGENTS
CHAMPIONSHIP

Content:

- Share the inspiration and motivation behind developing your AI agent.
- Highlight relevant experiences or insights that led you to identify the problem.
- Vision for Impact: Explain the long-term value or change you aim to create through your AI agent.

TIPS

- Keep your story personal, authentic and relatable.
- Connect your motivation to the real-world impact of your AI agent.
- Highlight 2–3 relevant experiences or insights that support your vision.

AVOID

- Including lengthy personal stories or unrelated background information.
- Focusing only on technical development without explaining your motivation.
- Making broad claims about future impact without a clear vision.

SLIDE 6: KEY TEAM MEMBERS YOUR VISION & MOTIVATION

تحـــدي الذكـــاء الاصطناعي المســاعد
CREATE AI AGENTS CHAMPIONSHIP

Content:

Meet the Team Behind....[Your AI Agent Name]
Showcase the team's experience and strengths that align with the agent's objectives.
Mention previous experiences and industries that give the team a competitive edge

Visuals:

Photos of the team with brief titles/roles
Logos of companies previously worked at
List of previous experience

TIPS

- Highlight 2–3 relevant skills or experiences per team member.
- Use short, impactful descriptions that demonstrate each member's contribution.

AVOID

- Including unrelated background information or lengthy career histories.
- Overloading the slide with text or unnecessary details.

SLIDE 7: HOW THE AI AGENT WORKS

PROTOTYPE DEMO/WALKTHROUGH (2 minutes maximum)

تحـــدي الذكـــاء الاصطناعي المســاعد
CREATE AI AGENTS CHAMPIONSHIP

Content:

- Demonstrate how your AI agent operates and interacts with users.
- Include a workflow diagram illustrating the agent's triggers, key steps, tools, integrations, decision-making process and human approval points.
- Highlight its key capabilities, including how it performs tasks, automates processes or makes decisions.
- Showcase a real-world example of your AI agent solving the identified problem.
- Demonstrate a functional, testable AI agent at the MVP stage or beyond. Public deployment is not required, but the agent must be accessible for judging and evaluation.

Visuals:

- Include a short demo video showcasing your AI agent in action.
- Use screenshots or workflow diagrams to illustrate key functions and interactions.

Must Include:

Demonstrate how your AI agent works, including:

- Key workflows, tools and integrations.
- How the agent makes decisions and completes tasks.
- Human oversight, error handling and limitations.
- Testing results and evidence of reliability.
- Working prototype access through a test link, private credentials or controlled demonstration.

TIPS

- Demonstrate a clear, practical use case with your working prototype.
- Focus on what your AI agent does and the results it delivers.

AVOID

- Overloading the demonstration with technical explanations.
- Showing unnecessary steps or features unrelated to the core solution.

SLIDE 8: TECHNICAL ARCHITECTURE & SAFETY

SECURITY, DATA PRIVACY & HUMAN OVERSIGHT

تحـــدي الذكـــاء الاصطناعي المســاعد
CREATE AI AGENTS CHAMPIONSHIP

Content: One slide, one diagram: how your agent is built, where user data is sent and a live human needs to step in

1 Architecture

Which AI models, tools and integrations power your agent? How does a request travel from input to result?

SHOW ON THE SLIDE

- The models, frameworks and integrations you use
- How they connect and execute, step by step

2 Data & Privacy

What measures are taken to safeguard data privacy?

SHOW ON THE SLIDE

- How data is processed and stored
- Safeguards: access controls, encryption, deleting data on request

3 Human Oversight

Which tasks does your agent complete on its own? At what point is live human intervention required?

SHOW ON THE SLIDE

- Tasks that need human approval
- Escalation triggers: missing details, low confidence, sensitive or out-of-scope requests

Visuals:

- One architecture diagram: input → AI model → tools → result
- Mark the human approval point and the escalation path
- Who is able to access the data?
- Optional: where data is stored and who can see it

Must include:

- At least one human approval point or escalation trigger
- How user data is protected
- Known limitations, stated openly

TIPS

- Use one diagram to show all three areas.
- Name the actual models and tools you use.
- State limits openly: a clear limit builds more trust than a hidden one.

AVOID

- Listing tools without showing how they connect.
- Claims like “fully secure” without saying how.
- Calling the agent fully autonomous when a person reviews its work.

SLIDE 9: PERFORMANCE METRICS & EFFICIENCY

EVIDENCE THAT YOUR AI AGENT WORKS

Content:

- Present a summary of your agent's testing results, including the number of tests conducted, successful and failed tasks, identified issues, improvements made and retesting outcomes.
- Report what you measured, and keep it apart from estimates and targets.

1 Accuracy & Success

How often does your agent get the task right?

SHOW ON THE SLIDE

- Number of tests or runs, and the success rate
- Failures found and how you fixed them

2 Time per Task

How long does one task take, with and without the agent?

SHOW ON THE SLIDE

- Time per task today vs. with the agent

3 Cost per Task

What does one completed task cost to run?

SHOW ON THE SLIDE

- AI model usage, hosting and tools, per completed task

4 Human Intervention

How often does a person need to step in?

SHOW ON THE SLIDE

- Share of tasks a person edits, approves or takes over

Visuals:

- A simple results table or chart
- A before-and-after comparison: time, cost or errors
- Include a test log summary or results table showing test scenarios, expected outcomes, actual results and pass/fail status.

Must include:

- How results were measured: number of tests, users and time period
- At least one failure or limitation found in testing, and what you did about it

TIPS

- Use real numbers from your own tests and state the sample size.
- Compare against how the task is done today.
- Carry your cost per task into Slide 10 (Revenue Model).

AVOID

- Claiming perfect accuracy without showing your tests.
- Presenting estimates as measured results.
- Numbers without context, e.g. “95% accuracy” with no test count.

SLIDE 12: REVENUE MODEL & PROFITABILITY

تحـــدي الذكـــاء الاصطناعي المساعد
CREATE AI AGENTS CHAMPIONSHIP

At this stage, focus on how your AI agent could generate revenue and deliver long-term commercial value.

Content:

- Explain your AI agent's potential revenue streams (e.g., subscriptions, licensing, usage-based pricing or enterprise solutions).
- Outline your proposed pricing structure and how customers would pay.
- Highlight potential operating costs, profitability and opportunities for growth.
- Estimate the cost per task or interaction, including AI model usage, infrastructure and other operational expenses.

Visuals:

- Simple pricing tables, revenue breakdowns or financial projections.

Must include:

Cost per Task: Estimate the cost of each completed task, including AI usage, integrations and human intervention.

Scalability: Explain how operating costs and profitability may change as usage increases.

Commercial Model

How will your AI agent generate revenue?

Who will pay for your solution, and how?

How could your AI agent become financially sustainable?

What is the estimated cost per task, and how does this affect profitability as usage increases?

TIPS

- Clearly explain your proposed revenue model and pricing strategy.
- Support financial estimates with realistic assumptions.

AVOID

- Presenting vague revenue streams without a clear business model.
- Including unrealistic financial projections or overly complex calculations.

SLIDE 13: GO-TO-MARKET PLAN

تحـــدي الذكـــاء الاصطناعي المســاعد
CREATE AI AGENTS CHAMPIONSHIP

Content:

- Explain how you plan to introduce your AI agent to your target audience and attract initial users.
- Identify key marketing and distribution channels (e.g., social media, industry networks, direct outreach or partnerships).
- Outline your customer acquisition strategy, including potential collaborations, budgets and growth opportunities.

Visuals:

- Timeline or Gantt chart

Go-to-market Plan

How will you reach and attract your first users?

Which marketing channels or partnerships will you use?

How do you plan to grow adoption over the next 12 months?

TIPS

- Outline clear, realistic steps for launching and promoting your AI agent.
- Highlight relevant partnerships, marketing channels and estimated budgets.

AVOID

- Using vague strategies such as "social media marketing" without specific actions.
- Presenting unrealistic growth targets without a clear acquisition plan.

SLIDE 14: ROADMAP / KEY MILESTONES

تحـــدي الذكـــاء الاصطناعي المســاعد
CREATE AI AGENTS CHAMPIONSHIP

Content:

- Outline realistic goals and upcoming milestones for the next 6–12 months, showing how you will develop your working MVP into a fully functional, live AI agent ready for the Grand Finale and future deployment.
- Highlight tangible actions and validations that demonstrate progress and readiness:
  - Feedback from potential users
  - Waiting list sign-ups, social-media interest, community engagement
  - Market research or surveys completed
  - Early partnership discussions

Visuals:

- Timeline or Gantt chart showing 4–5 clear phases.

Operational Plan

What resources and technologies are needed to develop and scale your AI agent?

What are your key development and testing milestones?

Which partnerships or support will help you achieve your goals?

TIPS

- Present realistic timelines and achievable milestones.
- Highlight progress made and clear next steps.
- Keep your roadmap visual, simple and easy to follow.

AVOID

- Making unrealistic launch commitments or growth projections.
- Overloading the slide with technical details.
- Listing general tasks instead of measurable milestones.

SLIDE 15: COMPETITIVE LANDSCAPE

تحـــدي الذكـــاء
الاصطناعي المساعد
CREATE AI AGENTS
CHAMPIONSHIP

Content:

- Identify existing AI agents, platforms or solutions that address similar problems.
- Highlight key competitors and their strengths, limitations and market positioning.
- Explain how your AI agent differentiates itself through innovation, functionality or user experience.

Visuals:

- Competitor map or matrix

Competitors

Who are your main competitors or alternative solutions?

What are their key strengths and limitations?

What competitive advantage does your AI agent offer?

TIPS

- Focus on 2–3 relevant competitors or existing solutions.
- Clearly demonstrate what makes your AI agent different and valuable.

AVOID

- Making unsupported claims or negatively portraying competitors.
- Comparing technical features without explaining their real-world benefits.

تحدي الذكاء الاصطناعي المساعد
CREATE AI AGENTS CHAMPIONSHIP

THANK YOU SLIDE

CALL TO ACTION & NEXT STEPS

Content:

- Include your AI agent's name and a memorable tagline.
- Provide contact details or links to your AI agent's demo, website or social media.
- End with a clear call to action that encourages further interest or engagement.

Visuals:

- AI agent logo or branding.
- Prototype screenshot or interface visual.
- QR code linking to your demo or website (optional).

TIPS

- End with a strong, memorable statement highlighting your AI agent's value.
- Include relevant contact information and a clear next step.

AVOID

- Introducing new information or technical details.
- Overloading the slide with text or unnecessary visuals.
- Ending without a clear call to action.

GOOD LUCK!

- **Recommended: 12 - 15 Slides**
- **Keep It Concise: Focus on the most important information and avoid text-heavy slides.**
- **Make It Visual: Use screenshots, workflow diagrams and graphics to demonstrate your AI agent's capabilities.**
- **Highlight Real-World Impact: Clearly communicate the problem, your solution and the value your AI agent delivers.**
- **Tell a Compelling Story: Ensure your presentation flows logically from the problem to your solution, demonstration and future vision.**
- **Practice Your Pitch: Keep explanations clear, confident and engaging, with a focus on what makes your AI agent unique.**
